- GitHub

PROFILE

Computer Science graduate with expertise in web development, MERN stack, and networking. Skilled in building dynamic applications and problem-solving, enhanced by a Udacity Programming Fundamentals course. Passionate about scalable solutions and continuous learning.

EXPERIENCE

Software Intern   07/2024 - 10/2024
APF Factory
📍 Bahir dar, Ethiopia
- Gained hands-on experience in system administration by observing how the company manages and controls its internal systems.
- Learned about corporate security management, including surveillance camera system operations for monitoring and safety.
- Observed and supported IT professionals in diagnosing and resolving technical issues related to hardware and software.

Students Union Member   2023 - 2024
📍 Debre Tabor, Ethiopia
- As a member of the **Deretabor University Student Union** Club, I actively participated in charitable initiatives and supported individuals with disabilities.
- My contributions included organizing and assisting with charity events, raising awareness, and providing direct help to those in need, fostering a more inclusive and supportive community.

PROJECTS

💎 **Online Bidding System**
- The project is a web-based platform developed by **MERN stack**. It facilitates seamless and transparent bidding processes for buyers and sellers.

💎 **CMS Project**
- A simple course management system project was developed using **JavaFX**, with **Scene Builder** utilized to streamline and accelerate the development process.
