EXPERIENCE

Software Intern — 07/2024 - 10/2024

APF Factory

Bahir dar, Ethiopia

- Gained hands-on experience in system administration by observing how the company manages and controls its internal systems.
- Learned about corporate security management, including surveillance camera system operations for monitoring and safety.

Students Union Member — 2023 - 2024

Debre Tabor, Ethiopia

- As a member of the **Deretabor University Student Union** Club, I actively participated in charitable initiatives and supported individuals with disabilities.
- My contributions included organizing and assisting with charity events, raising awareness, and providing direct help to those in need.

ERP Solutions PLC — 03/07/2025 - up to now

Addis Ababa, Ethiopia

- I specialize in **implementing** and **customizing** ERP system solutions to meet diverse business requirements.
- I **analyze** workflows, configure modules, and build custom features to improve efficiency and accuracy in the system.

ERP System Projects I have participated on

- Yencomad construction PLC
- TAF Energies PLC
- Yeabsira Industrial complex(**project head**)

PROJECTS

School System for Rising Star Academy

URL: https://risingstar-school.com

- A comprehensive school management system that automates **student score** tracking, **progress reporting**, and **attendance management**, streamlining academic performance monitoring and administrative tasks.

CLI Adventure Game

- A text-based adventure game built in **Python**, where players explore environments, make choices, and overcome challenges through an interactive command-line interface.

CMS Project

- A simple course management system project was developed using **JavaFX**, with **Scene Builder** utilized to streamline and accelerate the development process.

Online Bidding System

- The project is a web-based platform developed by **MERN stack**. It facilitates seamless and transparent bidding processes for buyers and sellers.

Snake Game

- This is a classic Snake game built using **C++**. The player controls a snake to collect food, making it grow longer with each item eaten. The game ends if the snake collides with itself or the boundaries.

To-Do App

- A simple and intuitive Todo application built with **React Native**. It allows users to add, edit, and delete tasks, helping them stay organized and productive. The app features a clean user interface and smooth performance.
